

Yamaha Feeder Storage Carts

ZS and SS Series

Yamaha Feeder Storage Carts

AGI's model **206 Cart** is a flexible and modular design that efficiently stores up to (72) 8mm **ZS and SS Series** feeders per shelf. The feeder shelves bolt to the cart frame on 2" centers allowing you total flexibility to configure the cart to meet your changing needs. The feeder tooling is Hardened Aluminum plate so it will last a lifetime. We also offer Reel Storage Shelves so that your Feeders and Reels can all be stored together.

AGI's model **602 Cabinet** is a flexible and modular design that has (4) sliding shelves. The shelves are designed to accommodate any of our standard tooling.
